Personal Lines

SMITHSolutions Remote provides a list of services for the individual that wants people to reach them, but still wants to keep their cell, home and business numbers as “personal” numbers. This is great for the starting entrepreneur. Individuals can control when people contact them and how. Even receive an audio attachment via email of all of your messages! Even utilize your own hold music!

Now you can control your personal interaction with a *SMITHSolutions Personal Lines!*

Terms and conditions apply

Number porting may take anywhere from 2 – 4 weeks depending upon carrier and approvals. Physical Phone Connectivity Options are available with SMITHSolutions' phones and adapters only and must purchase separately. E-Fax option is not provided through a separate number. Customers must purchase a dedicated separate line at \$14.99 for a separate fax. Setup for plans takes anywhere from 24 – 48 hours (business days). Cost does not include additional switch hardware if necessary. Onsite installation rates are \$150 / hour where applicable. Customer must have a high speed internet connection for service to be delivered.
